**Description:** SEO Farms was started in 1982. Today, SEO has 70 breeding Clydesdales and with the beginning of 2018 two champion shire stallions and eight mares to continue breeding champion Clydesdales and shires. Both breeds-the Clydesdales and the Shire, face declining registration and breeders to keep the breeds growing. As the Breeders age the ranks are facing obstacles to overcome - fewer stallions, fewer breeders, rising costs for younger enthusiasts to join the breeders list, and build a successful breeder's program. Buying quality animals is not easy but breeding champion quality Clydesdales and Shires is truly demanding and rewarding when your breeding program is recognized by your peers.
